In-Person: U.S. Federal Blockchain Forum

July 18 @ 9:30 AM - 12:30 PM

Note: All DigitalGov University events take place in Eastern Time.

PRE-REGISTER NOW

Location

GSA Building
1800 F Street
Washington, D.C.
Room 4250

Map

Registration Requirements

1. In order to participate in the forum, agency teams must submit a potential use case for Blockchain technology in your mission.
(2-3 sentences)
2. We ask that agencies send teams of one or two representatives to the forum.

About the Event

An inter-agency forum for executives across the federal government to learn about advances in Blockchain technology, discuss use cases and set an agenda for working together to evaluate and implement it among our diverse missions.

The U.S. Federal Blockchain Forum is a program of GSA's Emerging Citizen Technology program, organized in partnership with the Secretary of State's Office of Global Partnerships and GSA's Office of Information Technology Category.

What You'll Do

- Develop, share and discuss practical use cases for Blockchain technology among federal government missions.
- Identify resource, policy and compliance needs for the effective and efficient evaluation and implementation of Blockchain

technology in the federal government.

- Develop a U.S. Federal Blockchain Atlas and roadmap for the next 6 months on how agencies can collaborate to achieve our goals and support the creation of shared services for Blockchain technology.

Who Should Attend

Federal government managers.

For more information on the U.S. Federal Blockchain Forum and other initiatives of GSA’s Emerging Citizen Technology program — including Artificial Intelligence, Virtual/Augmented Reality, Social Technology and Blockchain — please contact program lead Justin Herman at justin.herman@gsa.gov.
