## About Storm Market

Storm Market creates more earning opportunities for people all around the world by utilizing technology. We make it easier for members to find new ways to earn, engage, and advance with our gamified micro-task platform for STORM tokens.

STORM PLAY™

Play to Earn

Earn by playing videos, and trying out new products and services

STORM SHOP™

Shop to Earn

Earn by shopping for products and services (To be defined)

STORM GIGS™

Perform to Earn

Earn by performing micro-tasks, like:  
machine learning, QA testing, and P2P  
freelancing tasks

Why Storm Market?

Storm Market is changing the way that people all around the world earn with one simple motto: earn from anywhere, at any time, from any device. Blockchain enables micro-transactions to be carried out in an efficient manner. The difference is around human-centric user interfaces and experiences. Our gamified micro-task platform creates an engaging user experience that encourages active participation with the STORM token community.

**GLOBAL**

Addressing the global needs of the eligible existing workforce of 4.68 billion people

**SECURE**

A trustless network powered by Ethereum Smart Contracts for micro-tasks

**GROWTH**

Continued growth of freelancers worldwide

**GAMIFICATION**

Gamification techniques used to help people earn more STORM tokens in an easy, simple way

**ACCESSIBLE**

Mobile first design approach to help people earn more STORM tokens, from anywhere, and at any time

**COMMUNITY**

Over 1 million downloads, and growing 250,000 monthly active users, in addition to the STORM token community

Blockchain enables the efficient matching of Storm Players to Storm Makers to: perform micro-tasks in 5 minutes or less, from any mobile device, and people being rewarded for performing the task. The Storm contracts (smart contracts) enforce these terms for the length of the contract’s engagement. The automation of enforcing the terms of the engagement and payment to participants with little to no human intervention provides an efficient system where fees are reduced, and with faster turnaround times.

SERVICE FEES (STORM GIGS™)

1% + Ethereum gas cost	Up to 40%

Storm Market will expand an existing network of growing users:

**STRONG TEAM**

StormX, Inc. (located in Seattle, WA) has shown consistent ability to work in a smart and efficient manner by utilizing limited resources. With very little outside investment, our team has been able to grow a profitable business by increasing users, products, and partnerships.

**HISTORY OF EXECUTION**

We have continually added and tested strategies to our business that have resulted in increased profitability. Since the implementation and release of our "Storm Task"™ feature, our revenue has been growing over 56% week over week.

**GROWING USERS**

Our user base is over 250,000 monthly active users (MAU). Most of the user growth to date has been driven by user referrals.
