# WELCOME TO **NUCLEUS.VISION BOUNTY** PROGRAM | WORTH US\$1M

Quote

**NUCLEUS.VISION** is starting the Official Bounty Program in order to reward BitcoinTalk Supporters, and we have one of the biggest **Bounty Pools to be ever awarded on Bitcointalk!** 

## Connect the Unconnected

At **Nucleus Vision**, we would like to foster a community of crypto enthusiasts, system engineers, application developers, researchers, thinkers, writers and other collaborators around Nucleus Vision for its future development and adoption. To show appreciation to our early supporters and facilitate our community building, we are pleased to launch our bounty program. We are committed to building a strong and active community and your help is critical to achieving this.

The bounty program will continue to run post the completion of our token-sale, starting from **25th Nov 2017**. To ensure transparency, we will maintain a points table and make it available to the community for scrutiny. At the end of each week during the program, we will update the points table for members to keep track of their achievements and help resolve contentious issues in a timely manner. Bounty will be distributed to participants after Nucleus's Token Generation Event.

A total of 1% nCash Tokens from the Total Supply of nCash Tokens are reserved for the Bounty Campaigns. If the hard cap is reached, that amounts to 100M nCash Tokens (approx \$1M at a price of 400\$/ETH).

5% for signature campaign looks too low you must reconsider it and might think of changing it. Signature campaign gives more exposure to the project when compared Facebook or Twitter campaigns which are mostly dominated by bots and useless fake accounts.
